Commercial Engineer – Central & Eastern Europe

The Berkem Group is growing rapidly, organized around its 4 subsidiaries, 3 industrial sites and 2 R&D laboratories in France and is commercially present today in more than 30 countries on the 5 continents.

For its Adkalis entity based in France, a major actor in Europe for the formulation of preservation products for the primary and secondary wood preservation as well as for heritage conservation with remedial solutions, it recruits a new collaborator.

The values that we share and that are at the origin of the success of the Group are independence, responsibility, pragmatism, innovation and responsiveness.

We are looking for:

Candidate's profile: Engineering education in construction, timber, or chemistry or relevant experience in one of these fields

Candidate's qualities: Autonomous, responsible, methodical, brave, perceptive, pugnacious, with high sense of communication.

Commercial geographical area: Central & Eastern Europe, based in Czech Republic

Language: Fully fluent in English and German.

Supplied equipment: Laptop, Smartphone, company car.

Training supplied: Technical, technological, regulatory and commercial.

Application: Please send a motivation letter and a curriculum vitae by email to: Recruitment@berkem.com
